*Penn State  
Paw Print Collection*

*Something in the nature of gold is exclusively unique. Like nothing else seen by man under the sky. Its qualities are both practical and stirringly magical. It has always been since man first laid his eyes on this golden metal.*

*Throughout the ages in the most primitive and in the most sophisticated cultures man has pursued gold. It has become the metal of choice for adorning the body.*

*At Rick Mahonski Goldsmith we are as serious today in continuing the centuries old tradition as our ancestors. Many of the techniques and processes have remained the same for thousands of years. In using these "old techniques" we are striving to create beautiful pieces of art for body adornment. You can be assured of the gemstones are the finest. The elegance of each design will make a statement about you without saying a word.*

*The greatest compliment I can receive is to see someone wearing my jewelry. I truly appreciate your business and will work diligently to satisfy each customer.*

*Sincerely,*

*Rick Mahonski  
Goldsmith*
